

THE CENTRAL COAST GROUP PROJECT (CCGP)
2013 "SUPER-CALI" MERLOT – VOGELZANG VINEYARD
HAPPY CANYON OF SANTA BARBARA
(SUPER-CALI SERIES)

& that brings us to Merlot... it's kind of a bummer that Merlot in general has had such an unfair rap in pop culture. yet, for those in the know, 100% Merlots are some of the most expensive, sought-after & delicious wines in the world.

personally, i love Merlot. it's a generous varietal that offers bounteous fruit & spices. okay, sometimes the fruitiness can get a little out of control & overpowering. i get it. but this is where our traditional techniques help in mitigating the forward fruit, layering in some savory earthy notes, & bringing everything into beautiful balance. voila!

in a word, this "Super-Cali" Merlot is classy. all delicious liquid class.

TASTING NOTES BY ANTONIO GALLONI

"The 2013 Merlot Super-Cali is another intriguing wine from Central Coast Group Project. Pungent, savory aromatics and mid-weight structure are some of the signatures in a wine that is deeply imbued with Santa Barbara and Happy Canyon character, even if the fruit is quite a bit more subdued than it usually is in Bordeaux reds from this part of the county."
